FOR IMMEDIATE RELEASE

UAT PARTNER AWARDED “BEST BUY SIDE ORDER MANAGEMENT SYSTEM” IN ANNUAL INDUSTRY RANKINGS

Linedata Services Achieves Waters Magazine’s Top Ranking For Second Straight Year

DENVER—July 23, 2009—UAT, Inc., the Denver-based technology and consulting company that developed the Unified Compliance and Control System (UCCS), has announced that its strategic partner, Linedata Services, the Boston-based global leader for investment software, solutions and support, has been awarded “Best Buy-Side Order Management System” in the annual 2009 Waters Rankings by *Waters Magazine*, a leading publication that tracks technology in the securities industry.

UAT’s UCCS incorporates Linedata’s LongView Trading, Linedata Compliance and Linedata Reporting to provide, for the first time, valuable benefits to the \$2.7 trillion sub-advised industry, including pre-trade compliance, real-time governance reporting, and substantial savings in brokerage costs.

“We congratulate Linedata on winning this award for the second straight year, which is a direct reflection of Linedata’s ongoing commitment to provide the highest level of technology and service to their clients across the asset management industry, including UAT,” said Tom Warren, President of UAT, Inc. “Linedata’s winning these, and other, awards serves to further validate our selection of Linedata as a strategic partner in the development of UCCS.”

“This year’s win cements our dominance of the order management space, and there is a growing recognition of Linedata’s leadership in the portfolio management and hosted solutions categories,” said Annie Morris, Managing Director for the North America region. “Linedata’s comprehensive front-to-back solution for the buy-side provides integrated tools that are truly best-of-breed. At Linedata Services, product innovation and client service comes first, and more awards are likely to follow.”

The *Waters* win comes close on the heels of the launch of LongView 7, the most significant new release of that Order Management System in more than a decade. LongView 7 provides a comprehensive solution to many of the challenges facing the buy-side due to increased volatility, demands for greater transparency, and the convergence between hedge and mutual funds.

“We’ve built UCCS to provide the sub-advised industry a level of real-time oversight never thought possible,” said Warren. “And Linedata continues to prove they’re the best partner possible at helping us

deliver that GPS-like solution for trading and compliance to the sub-advised industry...always know exactly where you are, and exactly where you want to go.”

About UAT, Inc.

UAT is a Colorado-based technology and consulting company offering the investment industry’s first integrated pre-trade compliance and real-time risk management system for sub-advised platforms. The firm’s innovative ‘Unified Compliance and Control System’ provides superior fiduciary control, lower brokerage costs, and improved investment performance for organizations utilizing external asset management, including insurance companies, pension plans, bank trust groups, 401(k) providers, mutual fund companies, foundations, and endowments. UCCS includes Linedata Service’s award-winning LongView Trade Order Management System and Linedata Compliance to provide supervision over sub-advisor execution orders.
